

# **NEHTA and E-Health**

**Kathy Dallest**

**Clinical Safety and Informatics Manager**

**9 July 2011**

# NEHTA's purpose

Lead the uptake of eHealth systems of national significance; and coordinate the progression and accelerate the adoption of eHealth by delivering urgently needed integration infrastructure and standards for health information

Established and funded by the Australian, State and Territory governments

# NEHTA's place in eHealth

- Increasing involvement in implementation sites
- Managing agent for PCEHR
- Support integration of eHealth
- National eHealth infrastructure

<b>Personally Controlled Electronic Health Record</b>	Clinical Information	Individual Information	Shared Information	[Others]
<b>E-Health Services</b>	Shared Health Profile	Events Summaries	Self Managed Care	Complex Care Management
<b>E-Health Solutions</b>	ePathology	eDischarge	eReferral	eMedications
<b>National Infrastructure Components</b>	Terminology	Secure Messaging	Identifiers	Authentication

# Healthcare Identifiers

# Identifiers Implementation

A staged approach

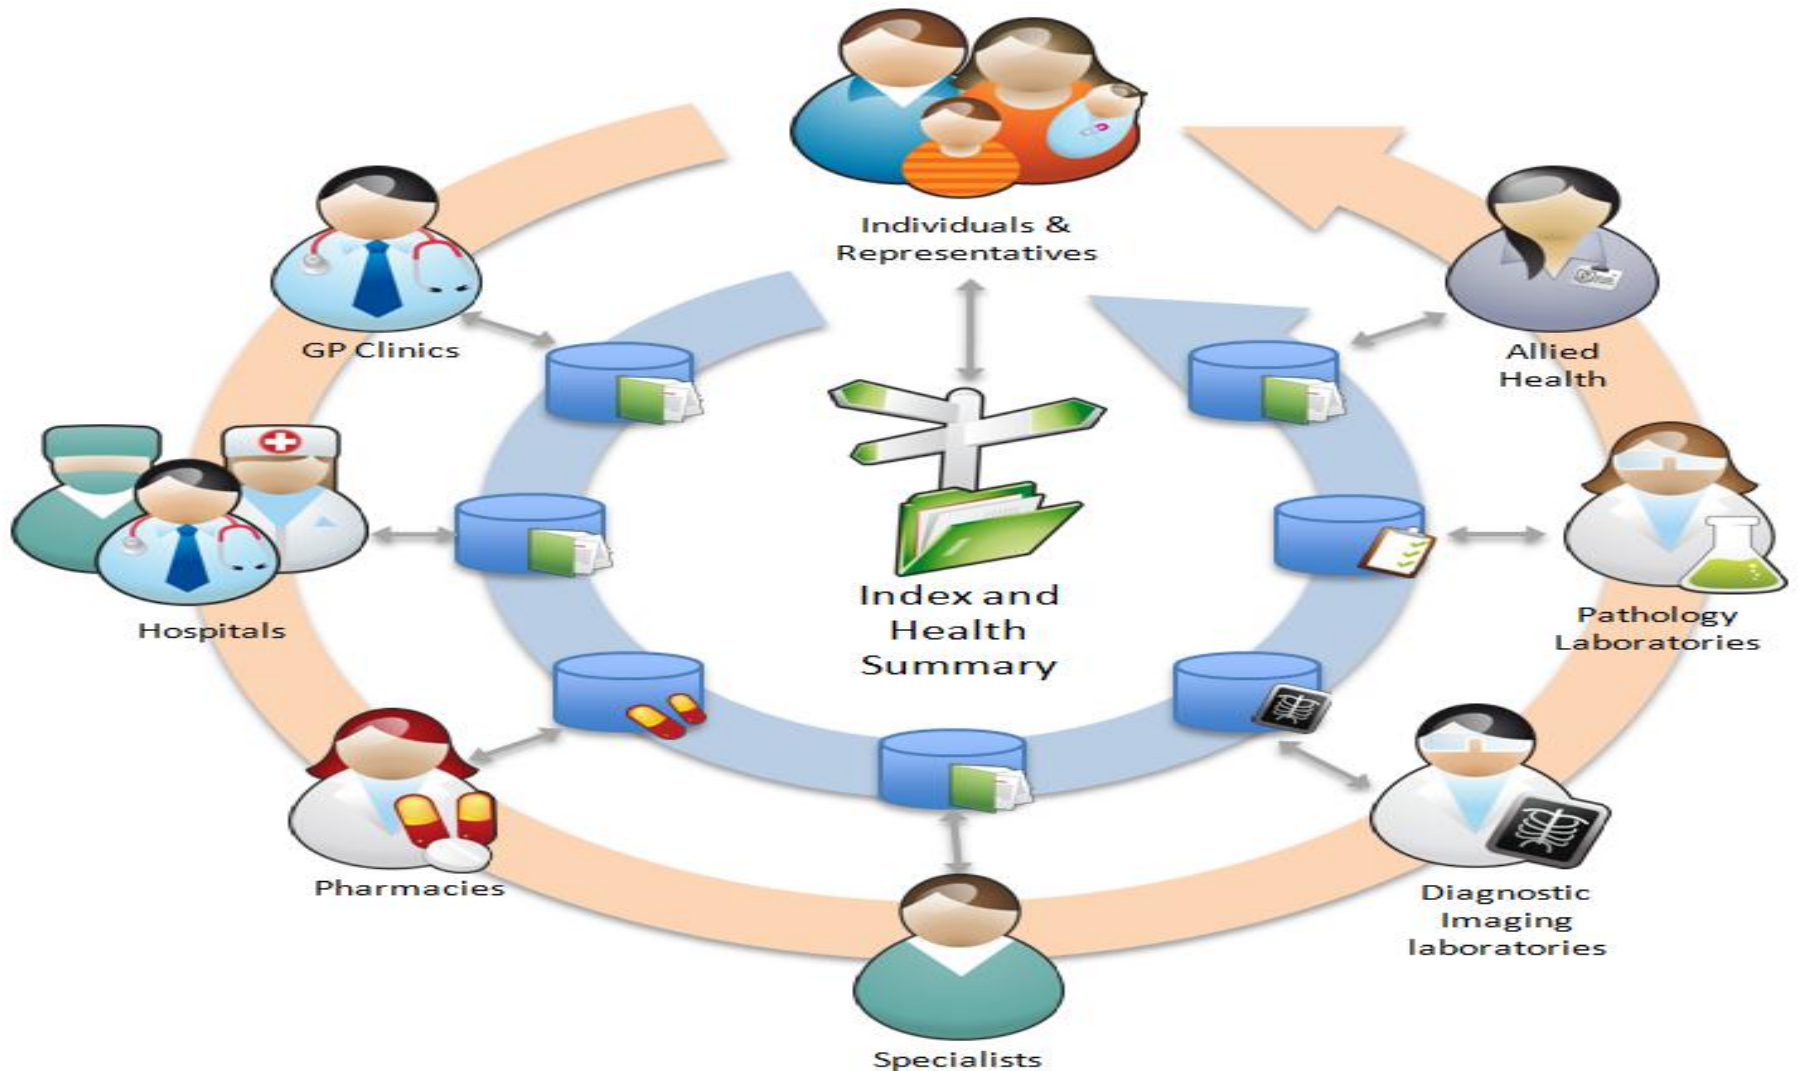

The HI Service is not “big bang” but incremental

Early adopters will work with NEHTA and they select their vendor partners

# eHealth: making it happen

# It's time for a PCEHR

# What is the PCEHR?

The PCEHR is a vehicle for Consumers to:

Share key pieces of their Health Information with Providers of their choice

It is not a replacement for existing point to point messaging or clinical systems

# Benefits

Better healthcare quality and safety – through better coordinated and more timely healthcare

Better use of time – spending less time searching for patient information

Better information sharing between providers – leading to improve decision support

Better quality information – less reliance on the individual to recall the details of their healthcare history

## Benefits (cont'd)

Better coordination of care – more effective shared care or supported self managed care means better management of chronic disease and complex health problems

Better use of treatment plans – through improved compliance

Better performance of healthcare providers – through availability of benchmarking data

Better support for clinical trials – leading to more effective healthcare treatments

# What do I need to do?

Gain an understanding of the intent and scope of the PCEHR

Start considering what it will mean for your practice and patient care

Discuss with your colleagues

Get involved and participate in the Public Consultation process

# Keeping up with the PCEHR program news
