Ron Tomlins	RACGP (represented by Teri Snowden)

The meeting had the following objectives:

- Confirmation of the Scope document
- Provide an update on the eDischarge Summary Implementation
- Provide an update on the progress of the eReferrals Environmental Scan

Summary of Actions:

- Ask National Health Information Regulatory Framework working group to consider relationship between duty of care and the rejection of referral.
- Package documentation review by CCRG members to be completed and the summary to be emailed out to the group for their immediate feedback.

Summary Outcomes:

- Key role of the group to identify future projects for NEHTA to link with.
- Revised Scope will include changes in language, clearer objectives and broader collaboration.
- A number of extensions to the core discharge summary will be released during the course of the program including - Mental Health, Aged Care and other specific discharge scenarios which will be discussed at the next CCRG meeting when the RoadMap will be circulated. Roadmap needs to show how medical management program fits in with the requirements to support discharge/referral
