#### The meeting had the following objectives:

- To discuss the high level work plan for 2009/2010 coupled with the program outcomes and critical success factors.
- To provide the Program Delivery Approach along with information on the three phases of activity – planning phase, development phase and the validation and support phase.
- To discuss key business problems identified during the consultation work.
- To discuss the detailed work program for Jul-Dec 2009.

#### Summary of Actions:

- The DSRG to develop clear and concise communication material that reflects the activities of the program.

#### Summary of Outcomes:

- The Group endorsed the critical success factors, the program delivery approach that is to be undertaken and the high level work plan presented.
- Three potential barriers to adoption were identified by the group - standards, accreditation and incentives – with agreement that resolving these will assist in adoption.
